

1. Prívod studenej vody
2. Výstup teplej vody

## Technické údaje

| Model                                                  | UNI 30 W                  | UNI 50 W | UNI 80 W | UNI 100 W |
|--------------------------------------------------------|---------------------------|----------|----------|-----------|
| Umiestnenie                                            | vertikálne / horizontálne |          |          |           |
| Objem (l)                                              | 27                        | 47       | 74       | 93        |
| Napätie (V)                                            | 230                       | 230      | 230      | 230       |
| Príkonnosť (kW)                                        | 1,2 / 2                   | 1,2 / 2  | 1,2 / 2  | 1,2 / 2   |
| Istenie (A)                                            | 10                        | 10       | 10       | 10        |
| Elektrické krytie                                      | IP 24                     | IP 24    | IP 24    | IP 24     |
| Doba ohrevu vody pri 2 kW 15°C - 65°C ( $\Delta$ 50°C) | 55 min.                   | 83 min.  | 124 min. | 158 min.  |
| Pripojenie vody                                        | 1/2"                      | 1/2"     | 1/2"     | 1/2"      |
| Max. tlak vody (bar)                                   | 5                         | 5        | 5        | 5         |
| Hmotnosť (kg)                                          | 18,68                     | 25,9     | 32,5     | 38,4      |
| Energetická trieda                                     | A                         | B        | B        | B         |
| Ročná spotreba elektrickej energie (kWh/rok)           | 462                       | 1243     | 1316     | 1228      |
| <b>Rozmery: (mm)</b>                                   |                           |          |          |           |
